

# PMI® Global Congress North America 2009

**10–13 October 2009** | Orlando, Florida USA

## Congress overview

PMI Global Congress 2009—North America is a three-day professional development event, hosted by Project Management Institute (PMI). It provides an opportunity for professionals across all industries to exchange ideas on today's project challenges and emerging trends.

## Value that Congress provides to your employee

- **Gaining inspiration and ideas**  
Over 150 educational sessions delivered by experienced presenters allow attendees to select a variety of topics each day that suit their interests and career needs.
- **Building your professional network**  
Attendees can engage with peers and thought leaders to gain insights, and learn about services and solutions from suppliers.
- **Accessing the PMI Career Headquarters**  
As a member of PMI, your employee has access to an array of tools and resources to position themselves as a more skilled, valuable employee with a clear career path. In addition, PMI offers tools that can help your organization with a project management career framework.

## What value will Congress bring to your organization?

Top executives report that project management is becoming increasingly important to their companies, and that project managers can improve business performance in any industry.

Congress offers knowledge, exchange of ideas, training and exposure to the most current resources for project management, which can help your projects be more successful.
